

**CONSTANTS OF SPECIAL REFERENCE**

**CROWN OF LION**  
0,03553391

The "CROWN OF LION" IS A SYMMETRIC FILTER FOR INSIDE, IF REPEATED IS INFINITE, INTERNAL PROPORTION OF MINOR COHERENT SPACE (mapping of behavior extravasant electric, geometry, electricity leakage).

CROWN OF LION  
0.03553391

INTERNAL PROPORTION FROM 5 TO 4  
0.103553391

**Crown of Lion:**  
(SIMETRY AND BASIC GEOMETRY OF SPACE FROM 5 TO 4)

The Energy of an Atom is not balanced in equal poles, if it were so the Atoms would not be parts of constructive movements, the balance exists, but there is something greater than that, moreover, extravasant Electric Energy which overlaps the balanced inertia ...  
+ and - are parts of different powers, the potential difference exists beyond the verified equilibrium and confirmed in contemporary experiences.

Equilibrium of positive and negative charges is Inertia.

The characteristic of the Atoms in relation to their Energy is different, each different Atom has its different Energy specifications, E = M.C2 is a wrong formula because it does not correspond to the truth of the differences, not every all atom is the bomb Einsten dreamed of. Equivalence between Energy and Mass is an illusion.

The 'QUALITY' of each chemical element has different potentials, as well as the mass of different atoms is not referred to in material of equal qualities, the Potential Difference is very different between the qualities of Chemical Elements. The Density of Different Materials is a very visible example.

Time is not a dimension, it is a state of matter.

Now the energy of the electrons has been recognized as greater life between so much space (permeability of the atoms), but directly linked to the flow comparison, such as water (but with greater fluidity).
